

INFRAINSPECTION INSTITUTE DISTANCE LEARNING INFRARED THERMOGRAPHY COURSES

**Now you can receive the world's best infrared training
without leaving your home or office.**

Infraspection Institute's Distance Learning thermography courses enable you to take your infrared training wherever and whenever it's convenient for you.

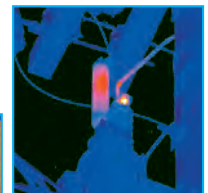

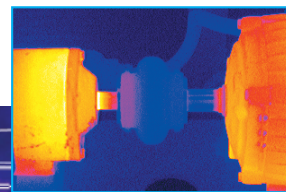

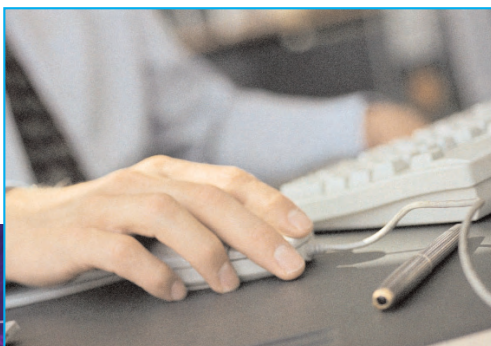

**With Infraspection Institute's Distance Learning,
you get the same quality course content for which we are famous.**
We utilize state-of-the-art web servers and dynamic multimedia resources to provide a unique, quality educational experience.

Our Distance Learning courses meet all ASNT training requirements for the certification of NDT personnel. All courses are taught by Infraspection Institute Level 3 Certified Infrared Thermographers®, each having over 20 years of professional experience.

Infraspection Institute's Distance Learning courses are divided into narrated one-hour units allowing you to work at a pace that's convenient for you. Each course unit is designed to build upon the previous units of the course. You may return to individual course units at any time for review.

Become a Certified Infrared Thermographer®

Students who successfully complete 32 hours of Distance Learning instruction are eligible to take the Infraspection Institute Certified Infrared Thermographer® exam. These exams are administered at our regularly scheduled open enrollment classes, via the internet, and at our annual advanced training conference, IR/INFO.

Choose the training that's right for you.

With our Distance Learning courses you can tailor your infrared education through our wide selection of applications and industry specific courses.
